

ANNUAL REPORT

Demi's Animal Rescue

2019

Demi's Animal Rescue focuses on solving pet homelessness through adoption, spay/neuter and pet retention. We do not discriminate against any animal that is in need and open our door to all regardless of their breed, age or special care required. We strive to see the day that pet homelessness is eliminated worldwide. Once an animal reaches Demi's Animal Rescue... It Only Gets Better From Here.

148 Cats Adopted

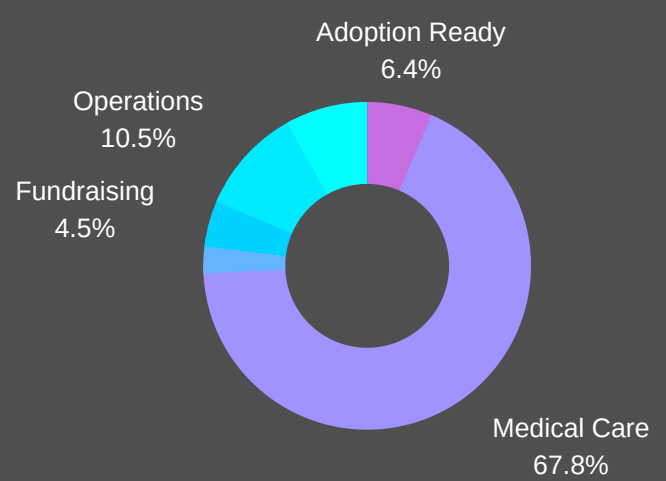

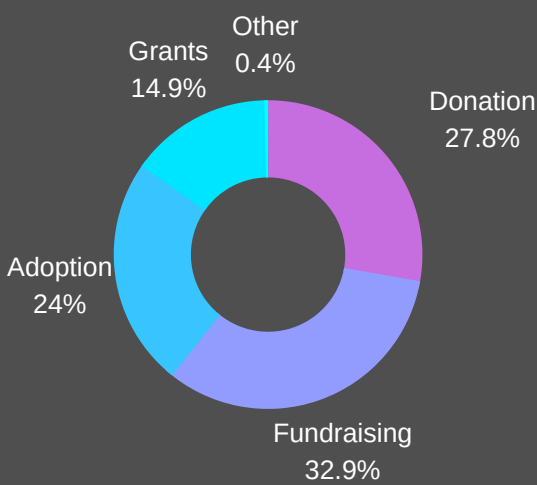

35 Dogs Adopted

THRIFT STORE & CAT ADOPTION CENTER COMING SOON...

Demi's Animal Rescue is celebrating a decade in operation by opening a thrift store and cat adoption center! Although we will continue to save ALL dogs and cats through our existing foster program, our adoption center will be dedicated to housing specific groups of cats that we have identified as overlooked and in need. The adoption center will consist of two free roaming cat rooms and will focus on providing a space for senior cats, bonded pairs, under socialized cats, black cats, FIV positive cats and more. These are cat populations that have high euthanization rates in shelters, are easily overlooked, or are not provided the opportunity they need to thrive in the shelter due to the stressful environment. Due to the nature of a free roaming space, we will not be able to accommodate cats with highly contagious diseases or cat aggressive cats in the center, but will continue to try to provide for those cats in our foster program as we are able to.

Income

Expenses

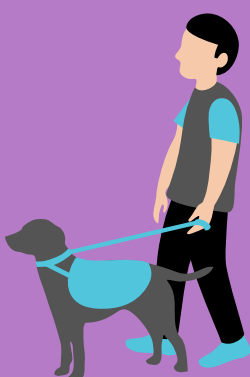

Total Income: **\$87,315.56**

Total Expenses: **\$66,646.39**

79 Community Cats Trapped, Neutered and Returned (or put into foster care)

This was a brand new program for us, ran by board member, Aimee. In her first year she was able to trap and fix 79 community cats.

6 Foster Dogs Saw Our Trainer

While we offer training to all of our dog fosters, 6 went to training for more severe issues such as aggression, under socialization and reactivity. All were successfully adopted out.

12 Severe Medical Cases

We took in 12 severe medical cases averaging \$1582.08 per animal. Treatments were successful in all but 3 cases.
